- 七、Dear Sir/Madam,

I am Li Ping from Class 5, Grade 7. I would like to recommend Zhang Qiang for this year's Best Student Award.

Zhang Qiang is kind, friendly and helpful. He is also clever and learns things quickly. He does well in all the subjects. He loves reading. He reads a lot of books in his free time. He learns more from the books.

He always thinks things carefully and plans everything well. He takes part in some activities like helping the old, raising money, collecting clothes and books for the children in poor areas.

He is helpful. Two weeks ago, Uncle Wang was alone at home and fell ill suddenly. Zhang Qiang took the old man to the hospital to see the doctor. Uncle Wang was very thankful.

All of our classmates think Zhang Qiang should get the award. Hope to hear from you.

Yours faithfully,

Li Ping

七、Dear Chairperson,

I would like to join the Love Nature Society.

First, let me introduce myself. I am a Grade 8 student at Sunshine School. My favourite season is winter because I can make snowmen and have exciting snowball fights with my friends. In my free time, I like reading biology books. I love nature and know a lot about wildlife.

I want to take part in different activities. We can go birdwatching in the wetlands to learn more about birds' lifestyles. Moreover, we can go to Yancheng Nature Reserve to count red-crowned cranes. It's important for us to do something to protect nature and wildlife. I can take part in activities from 1 p. m. to 5 p. m. on Sundays.

I will be very happy if I can become a member of the Love Nature Society. You can email me at lihua2010@126.com.

I am looking forward to hearing from you.

Yours sincerely,

Li Hua

- 七、Dear teachers and classmates,

The Yangtze River, our mother river, is facing serious challenges. Plastic pollution is everywhere on the river surface, and overfishing has broken the balance of its ecosystem. It's time for us to take action to protect it.

First, let's start with personal actions. We should reduce the use of plastic products, such as bringing reusable bags when shopping and refusing disposable tableware. Every small step can cut down plastic waste entering the river.

Second, we can organize campus activities. Planting trees along both sides of the Yangtze River can prevent soil erosion and provide a better living environment for aquatic organisms. We can also hold river-cleaning activities on weekends to collect rubbish by the river.

Third, we can use technology to help. With AI monitoring systems, we can track the situation of plastic pollution and illegal fishing in real time. This can help relevant departments take timely measures to stop harmful behaviours.

Remember, every little thing we do brings us closer to a green future. Come and join us today!

## 九上 Units 1~4 基础知识

- 一、1. keep... in order 2. neither... nor... 3. show off 4. come up with a new idea 5. pay attention to 6. connect to/with

- 七、Dear Linda,

Recently our class have talked about "teenage problems" of students and the main ways to deal with problems are as follows.

Students of our age face/have some common problems. For example, some students may have difficulty getting along well with classmates. As we all know, nobody is perfect, so it is better for them to pay more attention to the strong points of others.

What's more, some students find it difficult to fall asleep because their roommates are too noisy. If so, they should not keep the problem to themselves, but communicate wisely with their roommates.

Making many mistakes is another problem worth mentioning. It almost drives students mad. It's important to calm down, relax ourselves and believe in ourselves when having exams. If necessary, it is a good idea to go to our teachers for help.

In addition, some students are unhappy with their weight. Perhaps they should pay less attention to how they look but who they are.

What do you think of the ways? Looking forward to your opinions soon!

Yours,

Wei Hua

- 七、Last week I surveyed my classmates about their views on whether teachers can be friends. Here is the report.  
 One third of the students hold the view that it is impossible for teachers to be their friends. On one hand, they are much younger than their teachers. As a result, they may fail to communicate with teachers well because of the generation gap. On the other hand, teachers are usually strict with their students and students find it difficult to meet their high requirements on studies.  
 On the contrary, the rest of the students think that their teachers make excellent friends. The first reason is that their teachers often communicate with them, so teachers can feel and understand students' inner feelings. What's more, many students can even turn to their teachers when something worries them.  
 In my opinion, I think teachers can be our friends as long as they care about not only students' marks but how they feel and how they can learn better. Meanwhile, students should try to communicate with their teachers whenever they meet difficulties or have worries.

## 参考范文

1. Dear Eric,

Thanks for your email. I'm very glad to tell you something about my dream job. I have dreamed of being a teacher since I was a child, because I think teaching is a sacred profession and I enjoy staying with children. Besides, I want to be a teacher because of the power of an example—Miss Li, my English teacher. She often helps me with my English, and influences me a lot. I still remember that once I failed in an important English exam and was upset. She cheered me up and told me some good ways to improve my English. With her help, I made great progress in English. I have made up my mind to be a good teacher like her when I grow up. Although I know it is not easy to be a teacher, I will redouble my efforts to realize my dream.

Best wishes!

Li Ping

2.

**How to be a good teenager**

Hello, everyone!

It is my honour to make a speech here. Teenagers are the hope and flowers of a country. How can we be good teenagers?

First, we should set up correct values, love our motherland, and spread Chinese culture. Second, we should keep fit, do more exercise and get enough sleep. Third, we should study hard and join various clubs actively. Fourth, we should get along well with others and help those in need. Fifth, we should protect the environment. What's more, we shouldn't waste water, food and so on. We should try our best to be a good teenager.

I'm sure each of us will be a good teenager.

3.

Here is my story.

Once my classmates and I walked around on the playground. Nobody said anything because of the coming examination. How I wished to see their smiling faces! Suddenly, an idea struck me.

I stopped, raised my head and looked up. Some classmates asked me what was happening. I just opened my mouth wide, looking up into the sky. Soon, more and more classmates looked up, asking what had happened on earth. "Nothing! Just for fun! Haha..." I couldn't help laughing. Silent for a few seconds, they all laughed loudly. All the students and teachers passing by laughed with us.

My act of happiness cheered others up, and cheering others up brought me a happier day.

4. Dear friends,

Welcome to our school. Today, I want to share something about traditional Chinese culture with you.

There are many kinds of traditional Chinese culture. Some of them have a long history. They have influenced many people.

Beijing Opera comes first. As one of Chinese national treasures, Beijing Opera comes from "Huiban" and it has several parts, including singing, dancing and speaking. It's full of famous stories, and it is loved by Chinese people of all ages.

Next, let's talk about tea. In China there are many different kinds of tea in different areas, such as green tea and black tea. It is good for our health.

The last one is about china. China is the hometown of china. Our china technology is the earliest in the world, and it's famous all over the world.

Thanks for your listening.

5.

**How to improve myself**

Life is really a long lesson, so I have to improve myself.

Firstly, I will exercise for an hour every day, like running, swimming and so on to strengthen my body. Secondly, I'm going to read more, which can help open up my mind. What's more, I'll study hard and try my best to improve my grades. Besides, I am responsible for my family and myself. At the same time, I have to face the problem and cultivate my interests and hobbies.

In addition, I would like to say no to the following things. The first is to stay at home and play games. The second is over dependence on parents. The third is to avoid the problem. The fourth is not to be interested in anything. The last is not to study hard.

In a word, I will get better and better.

6.

**Volunteer work in Hongxing Community**

Last Sunday I worked in Hongxing Community as a volunteer.

Before the event began, we gathered at the entrance of Hongxing Park at 9 o'clock. We volunteers were then divided into groups. Some made eco-friendly products. Others gave out reusable water bottles and the bags we made. I went all out to work at the learning stalls, teaching neighbours how to properly recycle and how to reduce trash here in town.

I shared what I know with others through the activity. Sharing is caring. Wish everyone could care about our community and earth.

7. I like running and playing basketball very much. If I have time on weekends, I often go to the park with my friends to play basketball. So I want to take part in Sports Day. I can play basketball with my classmates to enhance the relationship between us. At the same time, I will also participate in running and long jump and other activities. I think sport can not only make us healthy, but also make us feel relaxed. At the same time sport improves our spirit of not giving up.

8. **Asking for help**

There might be some problems or worries in life. When we encounter problems or troubles that we cannot solve ourselves, we should learn to actively seek help from others. It's important to ask for help, and it will help us relax.

Last year, my English grammar was weak. Because of this problem, my English was not good. So I went to ask my English teacher for help. With the help of my teacher and my own efforts, my English score has gradually improved. Now I've really learned how to learn lessons myself.

In a word, it is normal to have problems. When we meet problems, we can ask people around us for help, such as teachers, classmates or parents. In addition, we can also search the internet for solutions.

9. Dear Mr Wang,

I am Li Hua. I am glad to know that you are in need of some tour guides. I'd like to be one of them. I think I am suitable for the job.

First of all, I am friendly and patient. I am active in many activities. Besides, I speak English well and have won several prizes in English speaking competitions. I am also good at telling stories. So I can introduce local culture to foreigners in English. Most importantly, I have visited the beautiful village many times and I can help foreigners better understand the life of the village.

If I could be given the chance, I would be grateful.

Yours,

Li Hua

10. **Thanks, Ms Li**

Everyone must meet a special person who makes you feel warm in life: your parent, your teacher or maybe your friend. I thank them very much. But the person I want to thank most is my English teacher—Ms Li.

She is very kind and easy-going. She helps me a lot. She is very tall. She has long hair and big eyes. She takes good care of me and often helps me with my English. When I am in trouble, she always encourages me to face my difficulties and gives me good advice. I still remember that once I failed in an important English exam and was upset. She cheered me up and told me some good ways to improve my English. Thanks to her, I have made great progress in English and I am becoming more and more interested in it.

From her, I learned the spirit of never giving up. I'm very thankful for all that she has done for me. I'm going to study hard. I'll try my best to live up to her expectations. I also want her to be happy every day.

真题再现

参考范文

1. Dear Sir/Madam,

I'd like to recommend Plan B (Visiting the Science Park) for our field trip. The reason is that many students, including me, are interested in science and technology. It's a great chance to explore programming and experiments, which are both educational and fun.

For additional activities, I suggest trying a virtual reality (VR) experience to learn about space technologies and attending a workshop to learn how to build simple robots. Watching robots dance is also a very good choice.

These activities will make the trip more wonderful. Looking forward to your reply!

Best wishes!

Yours,

Wang Hua

2. These days, we have more time to do sport. We experienced more and surely made progress. As for me, my PE teacher Mr Liu helped me most in sport.

Mr Liu is very patient and warm. He trained me hard every day. He showed me the correct ways of running and jumping. When I was about to give up because of the difficulty, he always encouraged me. His words had a great influence on me.

With his help, I have made great progress. I can run much faster and jump higher than before. I also become more confident and stronger.

3. **What longer break time brings me**

This term, we have five more minutes for break time. During the longer break time, I can do more sport and have a better rest. Basketball is my favourite. I have more time to practice it with my friends. It's a good time for me to take in some fresh air and enjoy the sunshine.

Sport makes me stronger and healthier. Besides, enough rest makes me more relaxed so I can study more carefully than before. I even have time to share something interesting with my classmates. I'm more outgoing and happier now.

I like the longer break time because it not only makes my school life colourful but also helps me keep healthy.

4. **Mistakes—steps towards success**

Mistakes are a part of life. Instead of fearing them, we should see them as chances to grow.

Mistakes help us learn. When we make mistakes, we can deepen our understanding of knowledge and sharpen our skills.

For example, in math, a wrong answer can lead us to figure out the correct method. They also build resilience. Facing mistakes, we stay positive and never give up, which makes us stronger. Moreover, mistakes encourage creativity. They push us to find new solutions, opening up different ways of thinking.

In short, mistakes are steps towards success. Let's embrace them!

5. **Kind words make a difference**

We can hear kind words everywhere in our life. They bring us warmth and courage to keep fighting on.

Back in Grade 7, the minute I got the result of the English exam, I felt sad. I failed again. Ms Hu came up to me and said softly, "I know you are hard-working. Please go on trying." Her kind words moved me deeply. I went on studying hard and my grades got better. Now whenever I meet trouble, I think of Ms Hu's kind words. They make a difference to me.

Kind words have temperature, so say kind words and become a warm person.

6. **Beautiful neighbourhood**

It is reported that the lovely flowers of my neighbourhood have attracted lots of tourists. Our neighbourhood, which is always clean and tidy, is full of friendly and polite people.

People here enjoy all kinds of activities. There are exciting sports games like volleyball matches and interesting art shows where people draw on stones. These activities make our life colourful.

In the coming days, we'll focus on recycling and reusing used things. We aim to turn waste into useful items, making our neighbourhood a more eco-friendly and charming place.

7. **Learn to deal with negative emotions**

Last month, I failed an important exam. I felt really sad.

To deal with these negative emotions, first, I communicated with my teacher. She gave me useful advice on study methods. Then, I started taking exercise regularly, like jogging in the morning. It helped me relax and regain energy.

Dealing with negative emotions properly is important. It helps solve problems. By talking to others, we can get solutions. Also, it avoids causing more trouble. If we keep negative feelings inside, they may lead to worse situations. Let's learn to handle negative emotions and live a healthier life.

8. **A good way to relax**

As Li Hua, I'd like to share my favourite way to relax—doing sport.

On weekends, I often play basketball with my friends in the school gym. When the ball bounces and we run around, all the

stress from study fades away.

Doing sport is amazing for relaxation. It keeps me healthy, making my body stronger to handle daily study tasks. Also, teamwork in sports opens up my mind to better cooperation. What's more, playing basketball helps me develop deep friendships with teammates. We cheer for each other, and these bonds make relaxation more joyful.

In short, doing sport is a perfect way to relax, bringing health, open-mindedness and friendship.

9. Dear John,

Knowing that you're interested in optional courses in our school, I'm writing to tell you something about them.

This term, we offer three courses: Calligraphy, Martial Art and Vegetable-planting. I've chosen Calligraphy. It takes place in the art room on Wednesday and Friday afternoons. I picked this course mainly because I've always been fascinated by Chinese characters. Calligraphy is like a bridge, connecting me with Chinese culture. By practicing it, I can calm my mind and improve my patience. Meanwhile, it can also calm me down. Through calligraphy, I have also gained a better understanding of traditional Chinese culture.

What do you think of these courses? Looking forward to your reply.

Best wishes,

Li Hua

10.

#### How to make free time meaningful

As a middle school student, I love my free time and usually do something meaningful. As for me, I'd like to spend my free time doing something that can improve myself.

To start with, I will keep reading for knowledge. Books are like engines of growth. Furthermore, I will offer to help around my house and get on well with my family. Meanwhile, I'm going to make more friends who are positive and can bring out the best of me. It's great to share youth problems with friends. Last but not least, I'll make future plans which remind me to keep on trying.

I dream of being a scientist when I grow up. Thanks to the meaningful self-improvement activities, I believe I will not only achieve my own dream one day, but also make valuable contributions to society in the future.

I believe small things like planting a tree can make a big difference.

##### Happiness

Everyone wants to get happiness. What is happiness? In my opinion, happiness means giving instead of receiving.

I still remember one happy moment last summer. My 70-year-old neighbour lives alone on the sixth floor. One afternoon, when I met him, he was carrying so many bags of groceries upstairs that he was out of breath. I offered to help him. He thanked me, saying I was an angel and that I really helped him a lot. I felt very happy at that moment.

Different people have different opinions about happiness; playing ball games, eating delicious food, reading favourite books, or staying with family. But I think true happiness comes from helping others.

**Many hands make light work**

Have you heard of the saying “Many hands make light work”? I think it means that when we meet difficulties, we can overcome them successfully only by pulling together.

Last term, our school held a tug-of-war. It was difficult for our class, because the students in our class didn't look strong enough to win the game. Before the game, the teacher and the students sat together and discussed how to win the game. A student came up with a good idea. He thought that each of us should try our best in the game. In the end, we won the game.

Everyone played a part in this game. Teamwork is the key to success.
