Hi, everyone! Welcome to the cultural week! Chinese fans are both practical tools and beautiful works of art. Here is the fan I made.

First, I prepared some colored paper, a pair of scissors and a brush. Then I cut the paper into a round fan surface carefully. Finally, I painted a lotus and bamboo on it. The lotus stands for purity, and the bamboo means perseverance—they are good Chinese virtues.

Making this fan made me happy. It's a good way to share Chinese culture with you. I hope this fan can help you know more about China, and our friendship will become better through this cultural exchange.

Hello, my friends! Welcome to China! I'd like to recommend Hangzhou, a beautiful city in the south of China. First, it's famous for the West Lake. The lake is like a bright mirror, and you can enjoy the nice scenery by boat or walk along the lake bank—it's really relaxing. Second, you can taste delicious local food here, such as West Lake Vinegar Fish and small steamed buns. They are very popular with both locals and visitors. Third, Hangzhou is also the home of Longjing tea. You can visit tea plantations and learn how to pick tea leaves, which is a special experience of Chinese tea culture. I'm waiting for you here in this beautiful city.

I really don't think it's right for students to say dirty words. First of all, it's very impolite and can hurt our classmates'

feelings, which makes it hard to keep a good relationship with them. Also, it breaks the harmony of our class and doesn't match the identity of a student.

If we find someone saying dirty words, we can help them in simple ways. We can politely remind them to stop at first. Then we can teach them to use polite words instead, and try to talk with them when they are angry to let them calm down.

Let's work together to use polite language and build a friendly class.

六 示例范文:

During the past three years' school life, I have so many good memories. I remember that I joined in a chorus performance in the school hall.

A week before the activity, my classmates and I practiced singing every afternoon. We corrected our pronunciation and adjusted our voices together. On the performance day, we stood on the stage confidently. When the music started, we sang in harmony. The warm applause from teachers and students made me feel proud and happy. This experience taught me that teamwork is the key to success.

To make our school life more meaningful, I have some advice. First, our school can hold more colorful activities in the school hall, like art shows and talent shows, to let every student show their skills. Second, we should take part in these activities actively, because they help us make friends and enrich our school life.

七 B: 示例范文:

To present the beauty of our school, we plan to record the amazing views in our school, such as the cherry blossom path and the green playground.

We will take photos with our phones first, then make a colorful poster to show them in the school hall. We choose this way because photos can keep the beautiful moments well, and the poster is easy for all students to see. What's more, we will also share the photos on our class WeChat group to let more people notice the beauty around us.

We expect to get two main things from this activity. First, we can improve our ability to find beauty in daily life. Second, working together in the group can help us build better teamwork and make more friends.

六 示例范文:

Camping is a good way to relax. For our school camping, we should take three important things with us. First, a tent is necessary because it can keep us safe and dry when it rains at night. Second, we need some snacks and water—they can give us enough energy for outdoor activities like hiking. Finally, a first-aid kit is useful to deal with small injuries quickly. These things will make our camping trip safe and enjoyable.

六 示例范文:

Dear Ms Li,

I'm excited to hear that our school will hold the activity "Telling Chinese Stories in English". I really want to take part in it.

I am a student who loves Chinese culture and has a solid English foundation. I am good at spoken English and can express Chinese stories clearly in English. Besides, I have learned many Chinese traditional stories, like the story of the Great Wall and Spring Festival customs. I hope to join the activity to spread Chinese culture to more students and improve my English skills at the same time.

I expect that you can give me this chance to show myself and I'm looking forward to your reply.

七 示例范文:

The power of small steps
The equations in the picture teach us an important lesson: a small daily improvement can lead to a huge change in the long run. If we do nothing every day (like 1^{365}), we will stay the same. But a little progress each day (like 1.01^{365} or 1.02^{365}) will bring amazing results.

I want to share these equations with my best friend, because he has been upset about his study and wants to give up easily. I hope these equations can encourage him. I advise him to take small steps: learn 10 new words every day and finish one math problem. Keep doing these small things, and he will make great progress soon.

I believe all of us can realize our dreams by taking small steps.
